

Index

Preface	3
Introduction	5
CHAPTER 1.....	9
Entrepreneurial ecosystem and datacracy: creating value for startups.....	9
1.1 <i>The virtues of variety</i> , anti-fragile ecosystems for generative growth.....	9
1.2 Eco-factors in entrepreneurial ecosystems: reviewing taxonomies	11
1.3 Datasources for detecting eco-factors.....	18
1.4 A framework to study data-driven entrepreneurial ecosystems.....	22
REFERENCES CHAPTER 1.....	25
CHAPTER 2.....	29
From eco-factors to eco-inputs: accumulating knowledge, institutional, financial and social capital.....	29
2.1 Knowledge capital as eco-input: human resources and entrepreneurial universities in ecosystems	29
2.2 Institutional capital from startup policies and support structures	36
2.3 Market size and external funds for financial capital growth	41
2.4 <i>Social capital as good capital</i> : enhancing networking and entrepreneurial culture	46
2.5 Discovering and connecting eco-factors, eco-inputs and indicators.....	52
REFERENCES CHAPTER 2.....	54
CHAPTER 3.....	65
Eco-outputs and eco-outcomes: comparing entrepreneurial ecosystems .	65
3.1 Defining eco-outputs as productive entrepreneurship indicators	65
3.2 International datasources for eco-outputs' investigation.....	69

3.3 Outcomes of virtuous entrepreneurial ecosystems	71
3.4 Entrepreneurial ecosystems in comparison: applying SMAA and SMAA-S methodological approaches	73
REFERENCES CHAPTER 3.....	88
CHAPTER 4.....	93
Entrepreneurial ecosystems, big data and analytics	93
4.1 Innovative paradigmas for entrepreneurial ecosystems.....	93
4.2 Exploiting big data for scientific research and talent promotion.....	98
4.3 Smart governance to increase institutional capital	103
4.4 Data analytics in finance: supporting financial capital build-up	110
4.5 Inclusion, social ties, trust and entrepreneurial culture: big data for social capital	116
REFERENCES CHAPTER 4.....	122
CHAPTER 5.....	127
Towards data-driven ecosystems: challenges and opportunities	127
5.1 Overcoming barriers for effective data exploitation.....	127
5.2 Mapping the value of data, ICT infrastructure, and data competences in European ecosystems.....	128
5.3 Regulatory issues for enabling data-driven entrepreneurial ecosystems	155
5.4 Competing ecosystems: emerging global best practices and initiatives	156
5.4 Future directions in entrepreneurial ecosystem studies and policies...	159
